

Introducing the 'New Horizons' trip tailored for Off Piste Skiers

Ski Club of Great Britain have created the 'New Horizons' trip specifically for under 39's off-piste skiers. This trip will take place in [Val d'Isere](#) - a resort renowned for its incredible off-piste skiing. From 1st to 8th February 2020, skiers can enjoy the [Skiworld catered chalet](#) experience in [Chalet Lores](#) situated in the heart of town, as well as return flights, transfers, 5 days off piste with instructors and Heli 'Taxi' pick up.

Split into groups of 6/7, you will explore the legendary terrain of the Val d'Isere-Tignes ski area with instructors. The groups will be split up depending on ski abilities.

Val d'Isere dates back to 1553 and has now reinvented itself as one of the world's finest ski resorts, whilst keeping the traditional architecture. The resort is currently undergoing a massive £170 million redevelopment, due for completion in 2022.

Chalet Lores

Located in the main street of Val d'Isere, sociable Chalet Lores is close to the buzzing après scene and slopes. This chalet is a firm favourite amongst British skiers and also featured in the 1979 comedy classic film "[Les Bronzés font du ski](#)". Chalet Lores still maintains that 70's eccentricity with its open plan interior, whilst offering that cosy sociable environment.

To book this ski trip, skiers have to be a member of Ski Club of Great Britain. Customers who are not members with Ski Club of Great Britain get half price membership.
